

VPK Parent Frequently Asked Questions

1. **What are the requirements for my child to attend VPK?** There are only 2 requirements for VPK.
 - a. Your child must be 4 years old on or before September 1st of the program year.

To be eligible for 2008-9 program year, the child must be born between September 2, 2003 and September 1, 2004.
To be eligible for 2009-10 program year, the child must be born between September 2, 2004 and September 1, 2005.
 - b. You must be a Florida resident.
2. **My child is not old enough/too old for the VPK program are there any exceptions to the age requirements?** Unfortunately, Florida statute does NOT allow for any exceptions to the age requirement. That said, there are other options available to every child regardless of age. In each county there is a Resource & Referral (R&R) agency that maintains a database of all legally operating early learning providers for that county. A trained R&R Specialist can provide you with a customized listing of referrals that match the needs of you and your child.

To speak with an R&R Specialist in Clay, Nassau, Baker, Bradford, St Johns or Putnam Counties please call toll free 800-238-3463.

3. **What options for VPK are available for my child?** The Florida legislature created two different options for parents:
 - a. A School Year program consisting of 540 instructional hours; and
 - b. A Summer program consisting of 300 instructional hours (child is eligible for this option the summer before they enter kindergarten).

A child is only eligible to participate in the school year program OR the summer program, but NOT both.

4. **How do I enroll in the VPK program?** If you wish to attend a VPK program located in Clay, Nassau, Baker, Bradford, St Johns or Putnam Counties you will need to meet face-to-face with an Episcopal Children's Services VPK Specialist. This face-to-face meeting will be done at a VPK round-up/parent registration. These dates, times & locations can be found at www.ecs4kids.org.

If you would like to attend a VPK program located in a county not mentioned above, please visit www.vpkflorida.com for the counties contact information.

5. What do I need to bring to the face-to-face meeting?

*****NOTE:** VPK Policy requires that the Parent/Guardian with whom the child LIVES be the one to complete the necessary VPK paperwork. *If you are not the child's parent, then a **PHOTOCOPY** of proof of Guardianship is also required****

We are allowed to accept as Date of Birth documentation:

- A duly attested transcript of the child's birth record (birth certificate) Note: birth certificate must be an official document
- A duly attested transcript of a certificate of baptism or other religious record accompanied by an affidavit sworn to by the parent.
- An insurance policy on the child's life that has been in force for at least 2 years.
- A passport or certificate of arrival in the United States showing the age of the child.
- A Florida immunization record indicating the date of birth, signed by a public health officer or by a licensed practicing physician.
- A valid military dependent identification card
- If none of the evidential documents listed above can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a licensed practicing physician which states that the physician has examined the child and believes that the age as stated in the affidavit is substantially correct may be accepted.

For proof of CURRENT PHYSICAL residence we are able to accept:

- The document must:
1. Include the parent's name
 2. The *parent's current physical address*
 3. MATCH the address listed on the VPK application
 4. NOT be a Post Office Box
 5. Be one of the items listed below

- Utility bills (if mailed to a P.O. Box, it will *normally* also contain the service address, if NO service address is listed then we NOT able to accept as proof of current physical residency) **Acceptable:** Electric, water, sewage, gas, cable, satellite or phone bills in the parent's name. **NOT Acceptable:** Cell phone, credit card of any kind, anything NOT in the parent's name.
- Pay stub
- Residential rental agreement or receipt from rental payment
- *Current* Government documents (e.g. property tax assessment showing homestead exemption, or FL ID / Driver's License)
- Military order showing that the child's parent is a service member in the US Armed Forces and is assigned to duty in Florida when the child attends the VPK program (e.g., permanent change of station)
- **If none of the evidential documents listed above can be produced, an affidavit of residency sworn to by the parent, accompanied by a letter from a landlord or property owner which confirms that the child resides at the address shown in the affidavit may be accepted.**
- If none of the evidential documents listed above can be produced for a homeless child, a letter from a homeless shelter or affidavit sworn to by the child's parent may be accepted to document residency showing that the child is homeless and resides in Florida.

6. **Do I have to bring a photocopy and the original with me to the round-up/parent registration?** No, you will only need to bring a photocopy of proof of your Florida and proof of your child's age so that we may retain these for our records.

*****NO COPY MACHINE WILL BE PROVIDED AT ROUND-UPS/PARENT REGISTRATIONS*****

7. **Does my child have to attend the round-up/parent registration also?** No, we are not required to meet with the child face-to-face, only the parent with whom the child resides.
8. **How long will the VPK round-up/parent registration take?** The amount of time that the round-up will take depends on how many people attend that particular event. Since there is no way for us to know how many people will attend any given event, we are not able to give you a time estimate.

That being said, we schedule round-ups throughout the year, so that parents are given multiple choices or times, dates & locations and once you meet with the VPK Specialist, the whole process usually take about 5-10 minutes.

9. **Do I have to enroll my eligible child in the VPK program?** NO, the program is completely voluntary for both parents & providers.

In addition to our enrollment/eligibility process, each VPK program has their own enrollment practices. Being determined eligible for the VPK program does NOT mean instant enrollment in any VPK program.

10. **Is there an enrollment deadline?** Enrollment in the VPK program is continuous, but after a certain date in the school year program enrollment may stop and the children will be considered for the summer session only.

However, please note that if your child does not start on the provider's first date of VPK, they will not be able to take advantage of the full 540 or 300 instructional hours.

11. **Am I able to transfer my child?** Parents are advised to closely examine their options and choose the VPK program that is best for their child. A child *may* be allowed to transfer once during the program year, but circumstances can be limited. You must first speak with your VPK Specialist before a transfer may be granted.

12. **Am I able to withdraw my child from the VPK program?** Yes, the VPK program is completely voluntary. You are able to withdraw your child at any time. You should also inform your provider of this and any other important communications.

13. **How much does it cost to enroll in a VPK program?** The VPK program is FREE for eligible children, regardless of family income. Providers are not permitted to charge a registration fee or require parents to agree to any additional services. State law does not, however, prohibit a provider from charging registration fees for program or care that are not part of the VPK program.

14. **Can a VPK provider require registration fees and/or additional fees for the field trips, etc.?** You as a parent cannot be refused enrollment due to failure to pay registration or other fees for the core VPK day. Conversely, State law does not prohibit a provider from charging registration fees for programs or care that are not part of the VPK program.

In addition to our enrollment process, each VPK program has their own enrollment practices and providers are able to show preference to those parents wishing to enroll their child in additional services.

15. **What providers are eligible to offer the VPK program?** Each private provider must be licensed child care facility, a licensed family home child care home, a large licensed family child care home or a nonpublic school for faith-based child care provider that is exempt from licensure.

Every public school district is required by law to deliver the Summer VPK program for every eligible child wanting to participate, but they are able to choose which public schools, *if any*, may offer the school year program.

16. **What VPK provider will my child attend?** Your VPK provider is not assigned. Instead, as a parent, you are given the right to select a VPK program that meets your child's needs (*subject to the provider's agreement to admit your child into their program*).

17. **How do I know what VPK providers are available?** There are a number of ways to find out what providers are participating in VPK. Our website (www.ecs4kids.org) contains listings of all the VPK providers in the counties we serve (Clay, Nassau, Baker, Bradford, Putnam & St Johns).

All approved VPK providers (in the State) are also listed on the Department of Children & Families (DCF) licensing website (www.myflorida.com/childcare/provider), regardless if they are licensed by DCF or not.

Provider listings are also available at the VPK round-ups/parent registrations or by contacting your VPK Specialist.

If you are interested in your child attending a provider that is not listed, we recommend that you speak with the provider to inquire as to whether they plan on participating in VPK.

18. **Do I have to enroll with you before I enroll with the VPK provider of my choice?** When you meet with us, we determine whether or not your child is eligible to participate in VPK. So you do have to meet with us before we are able to pay for any VPK days your child attends. However, each VPK provider has their own enrollment processes that are unique to that program. You will need to speak with each program to find out what this process entails.

19. **How many children may each provider serve in their VPK program?** While there is no limit on the total number of children served by each provider, there are restrictions to how many children a provider may serve in one classroom.

A VPK classroom may have up to 10 children with one instructor and no more than 18 children with two instructors.

20. **Are providers able to turn away children requesting to enroll in their VPK program?** Florida law does prohibit VPK providers from discriminating against children or their parents on the grounds of race, color, or national origin, including the refusal to admit a child to the VPK program.

In addition to our enrollment process, each VPK program has their own enrollment practices and providers are able to show preference to those parents wishing to enroll their child in additional services.

21. **Can children cross county lines to participate in the VPK program?** State law only requires the child to be a Florida resident. You will need to complete your VPK parent orientation in the county that the provider is located. Episcopal Children's Services serves VPK providers that are located in Clay, Nassau, Baker, Bradford, St Johns or Putnam Counties.
22. **How do I select a VPK provider?** Choosing a VPK program is an important decision and there are many different things to consider. We highly encourage parents to visit potential providers, ask questions and utilize the VPK and R&R brochure/tools you receive at the round-up/parent registration. These tools are also available on our website or by contacting a VPK or R&R Specialist at 800-238-3463.
23. **Will the VPK program provide transportation?** No, Florida law specifies that each parent is responsible for the transportation of his or her child to and from the VPK program. Some VPK program may offer transportation services and families are encouraged to explore these options before choosing a VPK provider.
24. **There are 3 year olds in my child's VPK class, are providers able to mix classes like this?** Yes, providers are able to have blended VPK classrooms, however those children are counted in their classroom capacity and their curriculum must still be literacy based and prepare children for kindergarten.
25. **What curricula should my VPK provider be using?** The Office of Early Learning/Department of Education (OEL/DOE) has not endorsed any one curriculum. Providers may use the curriculum of their choice as long as it is developmentally appropriate and enhance the age-appropriate progress of students in attaining the performance standards adopted by the DOE.
26. **What are the performance standards adopted by the DOE?** The Florida VPK Education Standards are skills that four-year-old children should know and be able to do by the end of their VPK experience. They are:
 - a. Physical Health
 - b. Approaches to Learning
 - c. Social & Emotional Development
 - d. Language & Communication
 - e. Emergent Literacy
 - f. Cognitive Development & General Knowledge
 - g. Motor Development

27. **It seems like all my child(ren) does is play in VPK, is this normal?** Research shows that young children learn best through hands-on experiences that have planned by knowledgeable teachers. To parents, this may look like 'just play', but it is actually active learning. For more information on what your child should be learning in VPK, please refer to the 'It's Okay to Play in VPK!' brochure that you receive when you attend a VPK parent registration/round-up.

28. **I hear that I will have to make sure that my child is tested in kindergarten, is this true?** Yes, all children participating in VPK will be screened upon kindergarten entry. The kindergarten screening is a process that will help us better understand how much your children learned through VPK. Results will also be used to determine the VPK Provider Readiness Rate.

The screening is administered by the district public schools for all public school kindergarten students. Children attending a non-public school for kindergarten must also be screened. For further information please call the Florida Kindergarten Readiness Screener (FLKRS) at 886-447-1159.

29. **What is the VPK Provider Kindergarten Readiness Rate?** The DOE/State Board of Education is required by law to calculate a kindergarten readiness rate every year for each VPK provider of either the School Year or Summer program.

The VPK Provider Kindergarten Readiness Rate measures how well a VPK provider prepares four-year-olds to be ready for kindergarten based upon Florida's VPK Education Standards. Current rates as well as additional information can be found online at <http://vpk.fldoe.org>.

30. **What is the VPK attendance policy?** The state's uniform attendance policy is used for funding purposes only. Parents have the responsibility to comply with the policies (e.g. attendance, discipline, late fees, etc.) for the VPK program in which their child is enrolled.

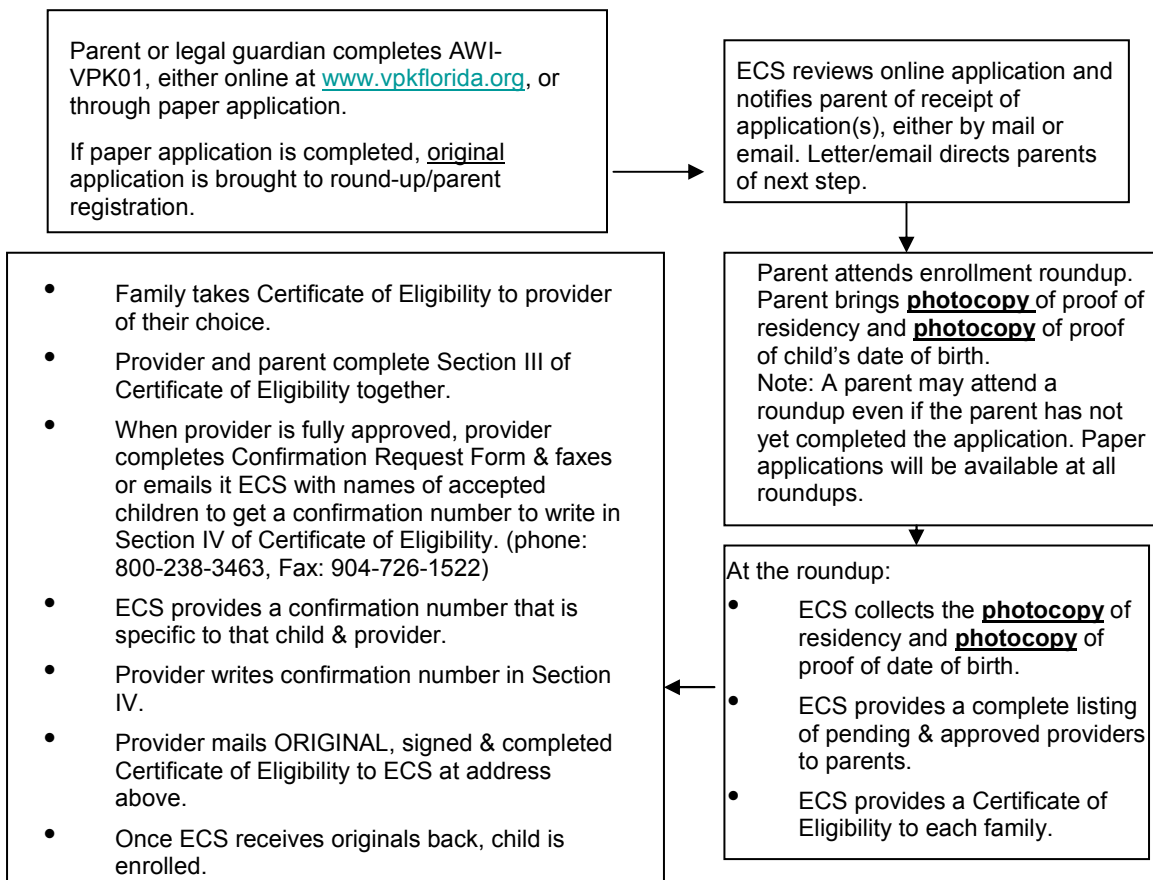

Parents are strongly encouraged to become familiar with the policies that apply to children in the VPK program before enrolling their children in the program.

31. **What happens if I want to go on vacation while my child is in VPK?** Depending on the length of the vacation and your provider's attendance policy, you could lose your opportunity to participate in VPK. You should know this before enrolling your child and choose your VPK program accordingly.

32. **What is wrap-around care?** Many providers offer the VPK program for only a few hours per day, but are also able to offer services before and/or after the VPK hours. The time not included in VPK is considered 'wrap-around care' and is a contract that is entered into between yourself and the provider and would not be governed by VPK policy.
33. **Do you offer any type of financial assistance for the wrap-around care?** Yes, we do offer financial assistance for those who qualify. For more information please call toll-free 800-238-3463 to speak with a Family Service Specialist.
34. **I lost my VPK Certificate of Eligibility (COE) how do I get another one?** If you have misplaced your VPK COE, please contact the VPK Specialist for your county and they will be happy to mail you a new one.
